# For real peace of mind...

**Our customers choose Endress+Hauser Start-Up safe in the knowledge that their devices are protected with a total of three years' warranty that includes 6 months' remote or on-site warranty support!**

With demands on their engineering and maintenance personnel higher than ever, relying on Endress+Hauser service engineers makes sense. We're experts in delivering a thorough job in the minimum possible time. It's what we do, time and again.

## You're in safe hands

The warranty is provided from the moment you receive your device so you can rest easy, knowing your product is protected. As part of the Start-Up, you can also have your device commissioned on-site or remotely by a qualified Endress+Hauser engineer at no additional cost!

If you choose to commission yourself, we offer a remote or on-site device integrity check within the first six months or until the end of 2020, whichever is the latter, to ensure everything is running as it should.

You'll also receive a certificate detailing those instruments benefitting from the warranty so you're in no doubt that any necessary work will be completed with minimum fuss.

## Terms and conditions

- Our Start-Up must be selected at the time of placing your order for new Endress+Hauser devices.
- Start-Up will be invoiced together with the new device sale and is party to similar payment conditions.
- When commissioning of the new device is required, it is the customer's responsibility to supply us with a date so that the commissioning can be planned in advance
- Start-Up services are only available during normal working hours (Monday-Friday).
- Offer applies to mainland UK only.
- Remote commissioning to take place via telephone or the Endress+Hauser Visual Support App, SightCall.

[For more information on our SightCall App visit us online >>>](#)
